ATRIUM SLIDING PATIO DOORS

Atrium’s series of vinyl patio doors opens up a world of possibilities for your project. Classic styling. Superior construction. Nearly maintenance-free, forever.

Raised simulated divided lite grids offer a stylish and traditional look. All other grids come secured in place between panes, which allows for easy cleaning without removing or working around grids.

MULTIPLE GLASS OPTIONS
FOR SLIDING PATIO DOORS

With multiple glass options to increase energy efficiency, we have a glass package to fit any climate need or budget.

Low-E Glass
Low-E glass is coated with a microscopic layer of silver that reflects radiant solar energy while permitting visible light to pass through the glass, providing more comfort and lower energy costs.

Low-E Glass + Argon Gas
Argon gas works like an insulating blanket between two panes of glass to further improve thermal efficiency and decrease outside sound levels.

Ultra Low-E Glass + Argon Gas
Choose our ultimate glass package for optimal energy efficiency and maximum cost savings. Ultra Low-E glass offers three invisible layers of silver coating in addition to the superior thermal performance of argon gas.

Air Leakage Rating for Sliding Doors: ≤ 0.3 cm³/s

Low-E glass reduces heat gain from the sun in the summer, keeping your home cooler.

In the winter, Low-E glass lets the warm solar rays in while blocking the heat in your home from getting out.

ENERGY STAR compliance available in all series. Verify product specifics before ordering.
