

ATRIUM[®]

WINDOWS AND DOORS

PREMIUM VINYL
WINDOWS AND DOORS
FOR NEW CONSTRUCTION

WINDOWS AND DOORS YOUR CUSTOMERS CAN TRUST FOR YEARS TO COME

Atrium windows and doors for new construction are precision engineered to deliver the stability, quality and energy efficiency that homebuyers value most—complemented by true and lasting beauty. Every Atrium window and door is designed to meet the strictest building codes: yours. They're the perfect choice for your new construction projects.

Premium Vinyl Construction

Practically maintenance-free, Atrium premium vinyl never needs painting or refinishing, and creates tight seals that dramatically reduce drafts so your homeowners save on heating and cooling costs in any season.

Easy Care Beauty

Our windows tilt in for easy cleaning, and our vinyl never peels, cracks or warps so you can wipe it clean in a snap.

Energy Efficient Glass Systems

Options abound to give your customers state-of-the art energy efficiency, including Low-E glass and Low-E glass with argon gas.

Atrium Assurance

Your customers can trust that they're protected by a limited lifetime warranty on each window (see actual warranty for complete details).

feature our signature brick mould design.

ENGINEERING EXCELLENCE

TAILORED FOR NEW CONSTRUCTION

At Atrium, we hold ourselves to a higher standard. Every window and door goes through rigorous quality control measures at each stage, from design to delivery. Our windows and doors for new construction are no exception. With a full range of design options and integrated installation features, they're engineered for error-free installation and ultimate customer satisfaction.

Fast, Easy Installation

New construction windows and doors have integrated features that ensure smooth, easy installation.

- + Pre-punched nailing fins and integrated J-channel design*
- + Optional factory mulling of twins and triples
- + Wood jamb extender options to eliminate "drywall return"
- + Special product identification number (PIN) sticker on each product makes ordering replacement parts easy

Pre-punched nailing fins and integrated J-channel*

3 1/4" flat casing with bull nose

Custom Shapes, Styles and Sizes

From octagons and trapezoids to full circles, half rounds, eyebrows and more, we can custom craft any window to help make your homes stand out.

- + Standard sizes are available, plus a full range of architectural options to accommodate any building style
- + Factory mulling is available for quick, seamless installation of twins and triples
- + Available colors: white, almond or clay
- + Operable eyebrows & half eyebrows available in Series 150/160

SERIES 5700 SINGLE HUNG WINDOWS

FOR NEW CONSTRUCTION

Single hung, picture windows and architectural shapes

- + Removable bottom sash
- + Industry leading .01 cfm/ft air infiltration performance
- + 1-3/8" Nail-fin setback for brick veneer construction and select stucco applications
- + Sweep lock helps provide a weather-tight seal and added security
- + Dual weather-stripping helps block air and water infiltration keeping energy-saving comfort inside
- + Double insulated glass provides energy saving efficiency.
- + Sloped sill reduces air infiltration and accommodates easy water run-off
- + Built-in accessory channels accommodate multiple installation options
- + Versatile half screen* installs easily from inside
- + Limited lifetime warranty provides reassuring peace of mind
- + Fusion-welded frame and sash minimizes water and air infiltration and enhances overall durability
- + Pre-punched integral nail-fin
- + Modular sized so that rough opening widths for multiple units are easy to calculate:
3050 Single = 35.5"
3050 Twin = 71.5"
3050 Triple = 107.5"
- + DP Rating R50 (window size tested 36" x 96")
- + Jamb depth: 2.625"
- + Limited lifetime warranty

CUSTOM Options

- + Low-E Glass
- + Low-E Glass + Argon Gas
- + Ultra Low-E Glass + Argon Gas
- + 5/8" or 3/4" flat, and 5/8" or 1" contoured available
- + Window Opening Control Device (field applied)
- + Factory mulling of twins, triples and architectural shapes
- + Paintable or stainable wood jamb extensions
- + Custom sizes available

+ COLOR OPTIONS

HIGH PERFORMANCE, ENERGY EFFICIENT GLASS SYSTEMS

Energy Star Climate Zone Map

Atrium windows and doors are engineered with state-of-the-art glass technology to give you outstanding thermal efficiency. With a full range of glass options and special insulated spacers, we have a glass package to fit any climate need or budget.

ENERGY STAR® Certification Criteria for Residential Windows

WINDOWS			
Climate Zone	U-Factor ¹	SHGC ²

ENERGY STAR VERSION 7.0 – EFFECTIVE DATE 10/23/2023

Low-E Glass

Low-E glass is coated with a microscopic layer of silver that reflects radiant solar energy while permitting visible light to pass through the glass, providing more comfort and lower energy costs.

Low-E Glass + Argon Gas

Argon gas works like an insulating blanket between two panes of glass to further improve thermal efficiency and decrease outside sound levels.

Ultra Low-E Glass + Argon Gas

Choose our ultimate glass package for optimal energy efficiency and maximum cost savings. Ultra Low-E glass offers three invisible layers of silver coating in addition to the superior thermal performance of argon gas.

+ Low-E glass reduces heat gain from the sun in the summer, keeping your home cooler.

+ In the winter, Low-E glass lets the warm solar rays in while blocking the heat in your home from getting out.

Select styles and glass packages can be ordered to meet ENERGY STAR® 7 guidelines. See your Atrium Territory Sales manager for details.

energy efficient
